Re: Receipt of Updated Surety Bond, Chemical Lime Company, Grantsville Quarry, M/045/028, Tooele County, Utah

Dear Mr. Kelley:

On October 22, 2002, the Division received the surety rider to bond _____, which increases the reclamation surety bond from \$265,700 to \$398,300 for the Grantsville Quarry. After performing the five-year review of the mining plan, it was determined that a simple escalation was all that would be required in order to bring the reclamation surety to current dollars and then escalating it five years into the future as required by the Utah Mined Land Reclamation Rules. No further action will need to be made to the reclamation surety until year 2007, unless there is a change to the existing approved mining and reclamation plan.

Enclosed is a copy of the surety bond rider for your files, which needs to be attached to and becomes an integral part of the existing surety bond and Reclamation Contract. Thank you for being so prompt in updating your reclamation surety. We wish you continued good luck with your mining operations.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
